

When you apply this theme you will see such screen (without headers 'Welcome to our site', 'Our Products' – we added them just as an example):

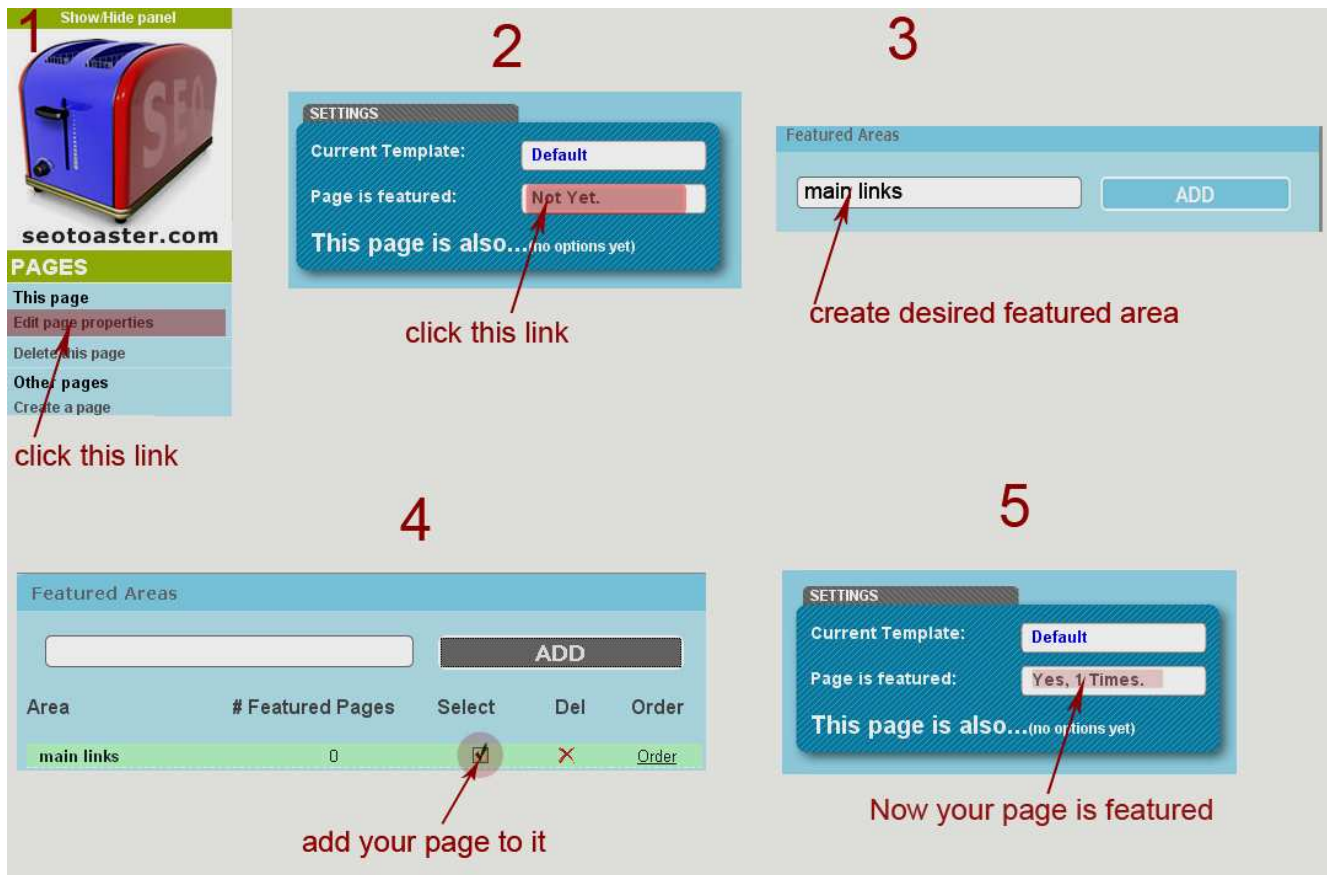

Step1:

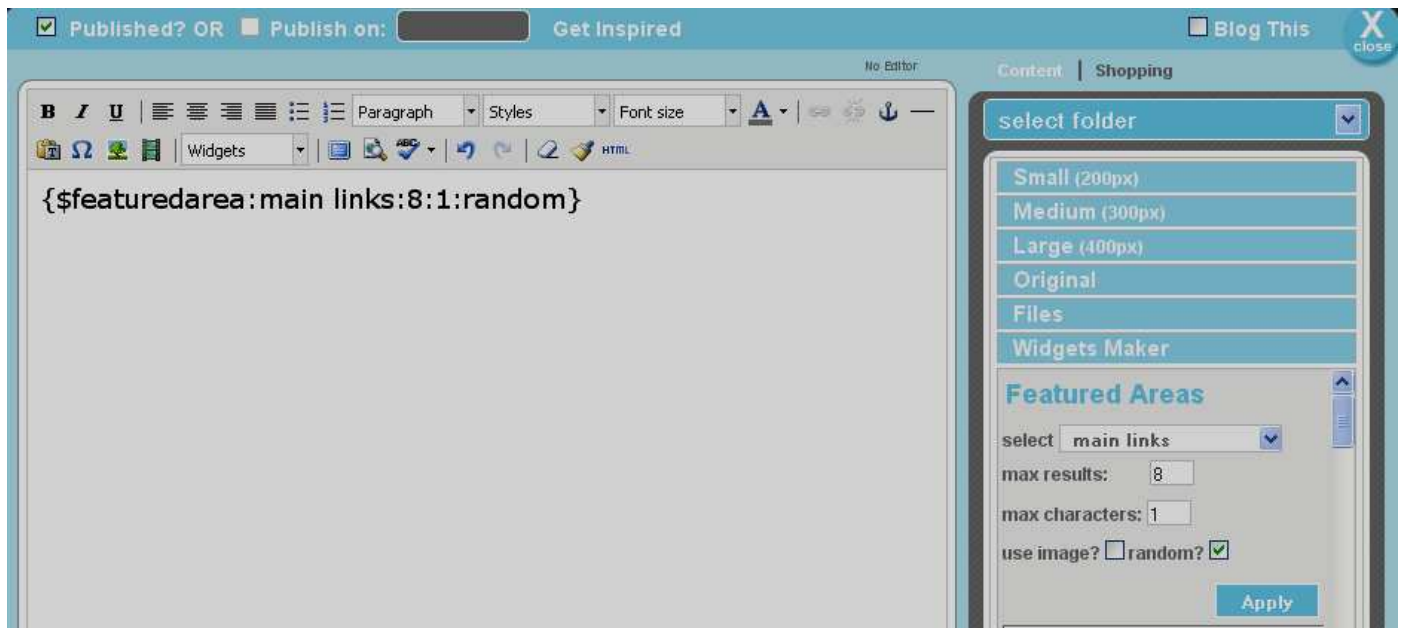

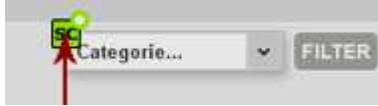

First you should decide what links would you like to see in drop-down menu (it may be featured area without images, list of categories):

As for featured Area:

To add some page to the featured area you should go to the page and then:

And the last step is to add this featured area to static container at the top of the index page

And now all pages that you add to this featured area will appear in this drop-down menu

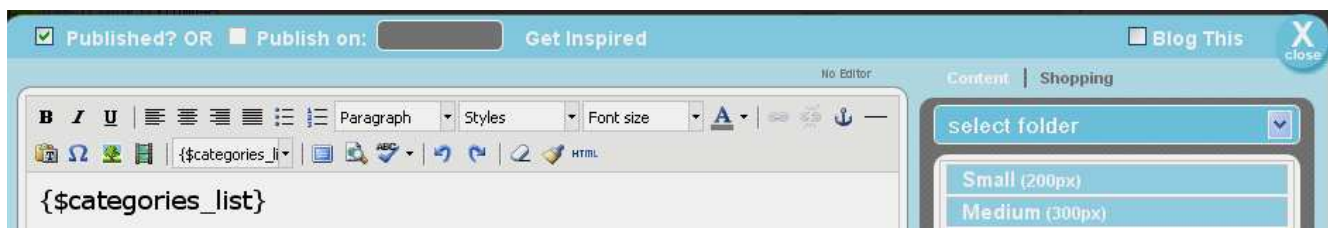

We have added only two pages to this featured area. You can add everything you want to this featured area because it doesn't matter is this page a category or regular page. **But! Don't forget that content from these pages goes to the bottom container on Home Page** (see step 2).

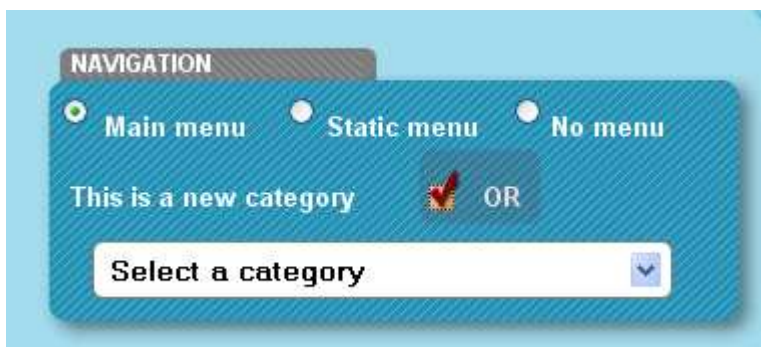

As for list of categories:

You should add variable `{$categories_list}` to this static container

Be sure that you say that this page is category while you are creating it:

In that way all pages that are categories automatically go to drop-down menu

HOW THIS MENU WORKS:

You should click on field 'Category' or the arrow at the right side and menu appears:

Then you click on desired category and it's name goes to the main field and then click on button "FILTER":

Now you are on the page where presented only the products of the current category.

STEP2:

For what do we need this menu with filter?

The matter is that on the bottom container will be presented the list of the product (for example) from several categories:

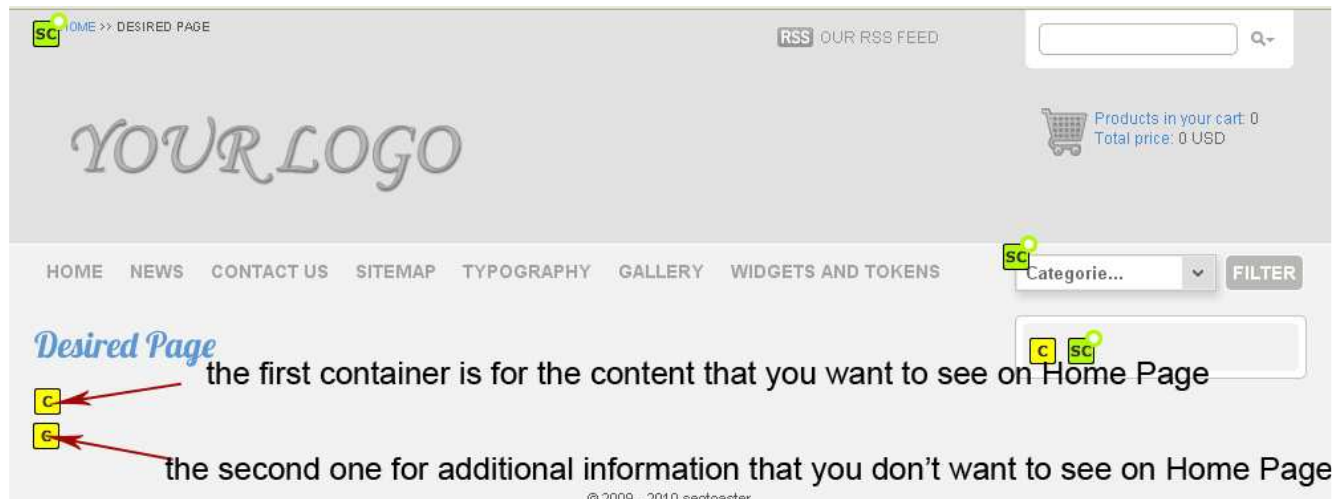

A screenshot of a website's product page. At the top, there is a header with 'YOUR LOGO' and a search bar. Below the header is a navigation menu with links: HOME, NEWS, CONTACT US, SITEMAP, TYPOGRAPHY, GALLERY, WIDGETS AND TOKENS. A dropdown menu is open, showing 'Categorie...' and a 'FILTER' button. Below the navigation is a 'Welcome to Our Site!' message. The main content area is titled 'OUR PRODUCTS' and shows a list of products. The first row of products is labeled 'Flowers' with a red arrow pointing to the category name. This row contains four product cards: 'Flower Fantasy' (300 USD, 500 USD), 'Flowers' (455 USD), 'Poppies' (530 USD), and 'Yellow Chrysanthemums'. The second row of products is labeled 'Abstractions' with a red arrow pointing to the category name. This row contains five product cards: 'Expectation' (350 USD), 'Heat' (800 USD), 'Sweet Dreams' (500 USD), 'The Cat' (400 USD), and 'The city of childhood' (400 USD). Each product card includes an image, a title, a price, and an 'Add to Cart' button.

And when we choose the desired category we will go to that page and see only products that belong to it.

How to add this desired content:

You should go to the page and add information regarding to your purposes:

If you want to add the list of the products of this current category do the following:
